

About

Microsoft Edge

Microsoft Edge is up to date.

Version 147.0.3912.98 (Official build) (64-bit)

Personal

✓ Sync is on

@outlook.com

Favorites

Easily access, organize, and manage your saved pages and sites

Settings

Adjust your synced browser settings, like the look of your new tab page

Personal info

Information like name, date of birth, address and more are saved so online forms are filled automatically

Passwords and passkeys

Stored securely and made available on all your devices. [Review security settings](#) to help make your Microsoft account even more secure

History

Review the web pages you've visited in Microsoft Edge

Open tabs

See the same open tabs when you switch between devices

Extensions

Enhance productivity, and extend the functionality of the browser

Apps

Easily install and open your apps on any device

Payments using Microsoft account

Cards saved in Microsoft account will be available to use across signed in devices and Microsoft products. Manage these cards in your [Microsoft account](#)

Workspaces and Tab Groups

Easily access, organize, and manage your Workspaces and saved Tab Groups across signed in devices

Feature Usage

Save information on how you use Edge features across your devices to determine the best layout for you

< Profiles / Share browsing data with other Windows features

Share browsing data with other Windows features

When turned on, Microsoft Edge will connect local browsing data from this profile with the rest of Windows. Turning this feature on will help you find information from your history, top sites and recent tabs more easily using features such as the search box on the taskbar in Windows. If you turn off this feature Microsoft Edge will remove the data shared with Windows on the device and stop sharing any new browsing data from this profile. [Learn more](#)

< Profiles / Profile preferences

Automatic sign in on Edge

If you're not signed in currently on Edge, we'll automatically sign you in by using your sign in info from other Microsoft sites like Outlook

Allow single sign-on for work or school sites using this profile [?](#)

< Profiles / Workspaces

Default behavior for external links

Edge will open external links in the last window or in the selected workspace

Last window (default) ▾

Passwords and autofill

Microsoft Password Manager

Payment methods

Addresses and more

← Passwords and autofill / Microsoft Password Manager / Settings

Ask to save passwords and passkeys

Allow Edge to save your passwords and passkeys and keep them safe.

Autofill passwords and passkeys

Allow Edge to autofill existing passwords and passkeys.

Scan passwords for leaks

Continuously scan your passwords in Edge against known leaks and get notified. [Learn more](#)

Show 'Reveal password' button

Shows a button to let you view your password as you type. This may not work on all sites.

Suggest strong passwords

Password suggestions work when Password Sync and Ask to save passwords are both set to on

Manage passkeys in Windows Hello

← Passwords and autofill / Payment methods

Save and fill payment methods

Fills in payment forms with your saved payment methods.

Save security codes

When enabled, Microsoft Edge will securely store your security code (CVV/CVC) on this device, allowing for faster and more convenient checkout by automatically filling it in during the payment process.

Show Buy now, pay later option on sites when you shop

Shows Buy now, pay later (BNPL) option that allows you to pay for purchases at a later date when you're ready to check out. [Learn more](#)

Show Express checkout on sites when you shop

To use express checkout, make sure Save and fill basic info and Save and fill payment info settings are on. [Learn more](#)

Allow sites to check if you have saved payment methods

Payment methods

Saved payment methods will appear here

No payment methods saved

Add payment methods

← Passwords and autofill / Addresses and more

Save and autofill addresses

Saves your name, phone number, email address, and delivery information to autofill it when you need it.

Use AI to improve autofill suggestions

Allow Edge to process autofill entries and field descriptions to get better autofill suggestions. Your personal data is secure and will not be used elsewhere. [Learn more](#)

Addresses

Saved addresses will appear here

No addresses saved

Add address

< Privacy, search, and services / Tracking prevention

Websites use trackers to collect info about your browsing. Websites may use this info to improve sites and show you content like personalized ads. Some trackers collect and send your info to sites you haven't visited.

Enable tracking prevention  

Blocks known harmful trackers

 Basic Allows most trackers across all sites Content and ads will likely be personalized Sites will work as expected	 Balanced (Recommended) Blocks trackers from sites you haven't visited Content and ads will likely be less personalized Sites will work as expected	 Strict Blocks a majority of trackers from all sites Content and ads will likely have minimal personalization Parts of sites might not work
---	--	--

Blocked trackers >
View the sites that we've blocked from tracking you

Exceptions >
Allow all trackers on sites you choose

Always use "Strict" tracking prevention when browsing InPrivate 

< Privacy, search, and services / Search and connected experiences

Edge may use web services to improve your browsing experience

Use a web service to help resolve navigation errors

☒

Suggest similar sites when a website can't be found

If a website can't be found, the web address will be sent to Microsoft to try to find the correct site

☒

Save time and money with Shopping in Microsoft Edge [?](#)

Microsoft Edge will help you find coupons, cashback, and other savings while you are shopping. In certain situations, we'll also find alternative product offers across the web. Microsoft will collect your browsing history and page content to improve the shopping experience provided by Microsoft products.

☒

Save content using Collections in Microsoft Edge [?](#)

Turn on this setting to save videos, multimedia, and more to your Collections

☒

Organize your tabs

☒

Address bar and search

Start, home, and new tab page

On startup

☐ Open the new tab page

☒ Open tabs from the previous session

☐ Open custom sites

Downloads

Location

C:\Users\mknipfer\Downloads

Change

Ask where to save each file before downloading

Always ask me if I want to save a file or open it without saving

☒

Open Office files in the browser

If this setting is on, Office files (presentations, spreadsheets, documents) will open automatically in Microsoft Edge instead of downloading to your device

☐

Show downloads menu when a download starts

Turning off this setting can make it harder to know when a file starts downloading

☒

System and performance

-  Graphics acceleration
-  Background mode
-  Startup boost
-  Proxy settings

 System

Adjust system settings like background mode and graphics acceleration

>

 Performance

Adjust performance settings like energy saver and sleeping tabs

>

 Use F12 key to open the Developer tools

☒

 Manage printers

< System and performance / System

Startup boost

Opens Edge faster when you start your device. [Learn more](#)

☐

Continue running background extensions and apps when Edge is closed

☐

Use graphics acceleration when available

☒

Enhance videos 

Sharpens videos and improves color, lighting, and contrast, when device is plugged in.

☐

Open proxy settings
