Window	REG_SZ	200 210 200
WindowFrame	REG_SZ	100 100 100
WindowText	REG_SZ	0 0 0

Extract from above: -

Active Title 153 180 209 is similar to Wedgewood Blue

Inactive Title 191 205 219 is lighter blue

But they are not effective because of Windows settings, StartAllBack settings and Win Aero settings, which override those above. ‘Mica effect on Top’ disabled using StartAllBack.

Actual colours: -

Active Title 128 128 128 (Grey) - Controlled by Windows Personalisation>Accent Colours.’

Inactive Title 255 255 255 (White) - Controlled by Winaero Tweaker ‘Appearance’.
